RESEARCH FOCUS

Clinical and Community Nutrition

Food Security

Food Biotechnology

Nutritional Biochemistry

Dietary assessment

Nutritional Epidemiology

Nutrition Education

NUTRITIONAL SCIENCES

Our nutrition scientists seek to understand how foods and nutrients affect the molecular and physiological mechanisms involved in health and disease.

RESEARCH GROUPS

Nutrition researchers advance knowledge and pursue solutions to health and healthcare system issues. The College conducts research in many areas.

Learn about our faculty and their areas of research:

FINANCIAL SUPPORT

Financial support for graduate students may come from one or more sources: faculty support, internal college scholarship award competitions, Usask awards, external scholarships, teaching and research assistantships.
